Office of the Inspector General of the Intelligence Community Announces Project Summarizing Intelligence Community Offices of Inspector General Information Security Continuous Monitoring Program Assessments

(December 2021) The Office of the Inspector General of the Intelligence Community (IC IG) plans to issue a summary report on Intelligence Community OIGs' Information Security Continuous Monitoring (ISCM) Program assessments. In fiscal year 2020, the IC OIGs conducted a joint project to identify reasons why Intelligence Community elements remain at a low maturity level for implementing continuous monitoring requirements. The objectives of this summary report are to consolidate the OIGs' ISCM data and identify any common themes to improve the IC elements' continuous monitoring program implementation (AUD-2022-001).
