

NATIONAL SUPPLY CHAIN INTEGRITY MONTH – APRIL 2022

Fortify The Chain: Open Source Software Security – An International Discussion

**Wednesday, 20 April
1:30pm to 4:00pm**

The National Counterintelligence and Security Center (NCSC) will host a virtual event featuring

**The Hon. Christopher Inglis,
National Cyber Director
United States of America**

For an international discussion on Open Source Software Security with invited guests

Mr. Patrick Hallinan,
Minister Counsellor Home Affairs and
Regional Director – Americas
Australia

Mr. Ian McCormack,
Deputy Director Government Resilience
United Kingdom

This discussion is open to the public and media upon RSVP with the team at CASTLE.

To RSVP, please visit <https://briccapp.com/> and use Event Code **9GND2NHS** to register for this virtual event at CASTLE.

Important: The contact details that you use to RSVP must be the same as the contact details that you will use for logging into the virtual event. If you plan to join the meeting by telephone, please register with the phone number you plan to use. This will expedite the verification of your registration status and admission to the event.

As this is a virtual meeting, all discussions will be held at the UNCLASSIFIED level.

Details for joining the virtual meeting will be provided after receiving your RSVP.
