1.2 - Permissible Values

The permissible values for this simple type are defined in the Controlled Value Enumeration: CVEnumMacCollectionType.xml

Table 1 - CVEnumMacCollectionType Patterns

CVEnumMacCollectionType Values	
Pattern	Documentation
other:[A-Z][a-zA-Z_]*	This is to denote that the collection is of some other type that is not defined in this CVE.

Table 2 - CVEnumMacCollectionType Values

CVEnumMacCollectionType Values	
Value	Documentation
Tearline	A Tearline collection denotes that the members of the collection express the same information sanitized to different classification levels.
Format	A Format collection denotes that the members of the collection are the same asset in different formats. (i.e. Word, PDF)
Role	A Role collection denotes that the members of the collection are the same asset in the same format with differences in content based on the role of the viewer. (i.e. Developer, System Administrator, Manager)
