

DEDICATION

I wish to express my utmost gratitude to my husband, (b) (6). His dedication in the unconventional role of civilian “male military spouse” is unmatched. Without his support and understanding throughout this process as well as his full commitment to an unpredictable military lifestyle, my accomplishments would not be possible. I would also like to thank my daughter, (b) (6), for her patience and thoughtfulness during this long and demanding process. Her constant sense of humor provided much-needed moments for me to regroup. Finally, I am thankful to (b) (3), (b) (6) and (b) (3), (b) (6) for providing superior expertise and insight on sociological and cultural meaning as it pertains to organized violence.
