Component Mission

The National Counterterrorism Center (NCTC) leads our nation's effort to combat terrorism at home and abroad by analyzing the threat, sharing that information with our partners, and integrating all instruments of national power to ensure unity of effort. The Center serves as the primary organization in the United States Government (USG) for analyzing and integrating all intelligence possessed or acquired by the USG pertaining to terrorism and counterterrorism, and its Director serves as the Counterterrorism Mission Manager. NCTC also serves as the central and shared knowledge bank on known and suspected terrorists and international terrorist groups, as well as their goals, strategies, capabilities, and networks of contacts and support. In addition, NCTC conducts strategic operational planning for counterterrorism activities, coordinating and integrating the efforts of departments and agencies across the Federal Government.

Major Duties and Responsibilities (MDRs)

- Lead the development and implementation of building a workforce and culture to deliver services that exceed customer expectations.

Mandatory and Educational Requirements

- Drive strategic planning for NCTC's long-term information technology needs through coordination with Center and ODNI counterparts.
- Provide technical direction in accordance with the strategic direction set by the Director.
- Build coalitions and develop networks across the Center, ODNI, and the Intelligence Community to gain support for and remove obstacles to NCTC's information technology development plans.
- Lead a professional staff in successfully defining and managing complex information technology programs and projects that may include ill-defined requirements, ambiguity, parallel tasks, multiple dependencies, high risks, and multiple stake-holders.
• Perform personnel management responsibilities with a focus on building a high-performance workforce; promote team building and a collaborative work environment; ensure goals and performance objectives are understood; assess performance and provide timely feedback, recognition, and remediation.

• Provide leadership, guidance, and oversight of staff in order to elicit, analyze, and define customer/stakeholder requirements, support development of investment plans, and ensure development of business cases spanning multiple Intelligence Community organizations in order to meet stakeholder requirements.

• Excellent leadership, managerial, and organizational capabilities.

• Attention to detail and demonstrated skills in program management and analysis.

• Strong critical thinking and communication skills, to include the ability to coordinate effectively across disparate organizations and to negotiate with multiple stakeholders.

• Demonstrated ability to build and strengthen partnerships to solve problems, gain efficiencies, pursue strategic objectives, or drive change initiatives.

**Desired Requirements**

• Experience managing information technology programs or projects and developing information technology solutions.

• Demonstrated understanding of the Scaled Agile Framework (SAFe) service delivery model for information technology and its relation to the enterprise governance and requirements management processes.

• Contract management experience; preferably for information technology services.
