Component Mission

The National Counterterrorism Center (NCTC) leads our nation's effort to combat terrorism at home and abroad by analyzing the threat, sharing that information with our partners, and integrating all instruments of national power to ensure unity of effort. The Center serves as the primary organization in the United States Government (USG) for analyzing and integrating all intelligence possessed or acquired by the USG pertaining to terrorism and counterterrorism, and its Director serves as the Counterterrorism Mission Manager. NCTC also serves as the central and shared knowledge bank on known and suspected terrorists and international terrorist groups, as well as their goals, strategies, capabilities, and networks of contacts and support. In addition, NCTC conducts strategic operational planning for counterterrorism activities, coordinating and integrating the efforts of departments and agencies across the Federal Government.

Major Duties and Responsibilities (MDRs)

One group in NCTC's Directorate of Analysis, is seeking a pro-active Project Manager with strong problem solving skills to help develop and refine production workflows and applications requirements. This includes developing software requirements and efficient production and dissemination processes for PDB-level products such as the Terrorism Intelligence Brief, and the NCTC Current. The incumbent will help develop NCTC-specific requirements for the Intelligence Community Production System (ICPS), in combination with NCTC's new intelligence portal, The NCTC CURRENT. The chosen officer will also work on other projects, such as the development of a visuals archiving system, the use of iPads, and other production-related systems and workflows. Additionally, the project manager will help coordinate and track production to better understand processes and systems.

- Accomplish complex IT projects or programs that may include ill-defined requirements, ambiguity, parallel tasks, multiple dependencies, high risks, and multiple interfaces; ensure alignment with strategic or corporate objectives; define and review of customer and stakeholder requirements; follow plans and schedules throughout the life of the project.
- Analyze program alternatives.
- Contribute to the development and improvement of intelligence production and dissemination systems and workflows.
- Coordinate work activities, assignments, and projects with stakeholders to ensure their understanding and the effective completion of initiatives and requirements.
- Advises management on resolutions to complex problems regarding program/project requirements, coordination, and implementation.

- Contributes toward the development of near- and long-range program/project strategies and plans to meet the program/project requirements, and establishes implementing criteria and timelines.
- Utilizes partners and subject matter experts, beyond your own organization to understand and develop requirements that will enable NCTC to more effectively track, coordinate, produce, and disseminate intelligence.

Mandatory and Educational Requirements

- Critical thinking and problem solving skills, including the ability to interpret complex information from multiple sources.
- Ability to work effectively and efficiently within a diverse, creative, and often fast-paced project team environment and to efficiently manage time.
- Demonstrated ability to manage multiple tasks and a diverse portfolio of responsibilities
- Demonstrated ability to set direction and priorities
- Demonstrated ability to communicate, both orally and in writing, complex information in a clear, concise manner that is targeted to and meets the needs of diverse audiences with different perspectives and objectives.
- Ability to plan, guide, and conduct the research and identification of key program issues, evaluate alternatives, and develop innovative proposals for decision by senior leadership.
- Demonstrated ability to listen to, clarify, and convey understanding of others' ideas, comments, and questions as well as to integrate and build upon diverse opinions in a manner that encourages the formation of integrated solutions and positions.
- Knowledge of the rules of governance and project lifecycle methodologies; knowledge of Project Management concepts and principles.
- Experience examining project successes and failures and making expert recommendations to improve products and services; ability to deal with service failures and prioritize customer needs.
- Ability to perform thorough work and conscientious about attending to detail.
- Interpersonal, organizational, and problem-solving skills, including ability to work effectively both independently and in a team or collaborative environment and to lead and mentor junior colleagues.

Desired Requirements

- In-depth knowledge of sophisticated publishing systems/techniques and electronic dissemination mechanisms.
- In-depth knowledge software applications and systems.
- FAC-C P/PM or equivalent PM certification; DOD Level I PM certification.
