- For a detailee assignment:

- Current Federal Government employees. Only Senior Service (SNIS, SES, SIS, DISES, DISEL) candidates may apply. Highly qualified GS-15s may apply.

Salary Determination

- The ODNI uses a rank-in-person system in which rank is attached to the individual. A selected ODNI candidate or other Federal Government candidate will be assigned to the position at the employee's current GS grade and salary.
- A current Federal Government employee, selected for a detail, will be assigned to the position at his or her current grade and salary.

Component Mission

The Director of National Intelligence (DNI) serves as the head of the Intelligence Community (IC). The DNI also acts as the principal advisor to the President and the National Security Council for intelligence matters related to national security; and oversees and directs the implementation of the National Intelligence Program. The DNI leads intelligence integration and forges an intelligence community that delivers the most insightful intelligence possible. The Deputy

Director of National Intelligence for Enterprise Capacity (DDNI/EC) is responsible to the DNI for all matters pertaining to IC resources, workforce, systems, technology and infrastructure, with five reporting components: Acquisition, Procurement and Facilities, IC Chief Financial Officer, IC Chief Human Capital Officer, IC Chief Information Officer, and Systems & Resource Analyses. The Assistant Director of National Intelligence for Systems and Resource Analyses (ADNI/SRA) is the principle staff assistant and advisor to the Director of National Intelligence (DNI) on matters pertaining to program analyses, evaluation, and resource allocation through independent analyses and advice relevant to the National Intelligence Program (NIP) and the Military Intelligence Program. As the principle advisor to the DNI on these matters, the ADNI/SRA analyzes, evaluates, and provides alternative plans, programs, and budgets for DNI priority objectives, projected threats, estimated costs, and resource constraints.

Major Duties and Responsibilities (MDRs)

- Lead, manage and monitor cost estimating activities for all IC SIGINT major system acquisitions and coordinate those activities with the IC cost groups.
- Lead cost estimating efforts for SRA major issue teams and conduct in-depth affordability assessments, alternative analysis and trade studies and implement innovative solutions to support SIGINT program budget builds
- Develop new cost estimating methods, tools and techniques and research and collect historical cost data on SIGINT IC programs to support ICs and affordability assessments
- Lead the collaboration, sharing of information and techniques with the IC cost groups and OSD Cost Analysis and Program Evaluation (CAPE) in support of SIGINT cost estimates
- Provide technical expertise to evaluate program cost estimates and extended budget projections and identify and quantify budgetary, cost, schedule, technical, and programmatic risk factors related to SIGINT programs

- Prioritize and initiate oversight activities related to commodity areas of cost analysis and budgetary responsibilities to help ensure sufficient resource availability
- Enforce and implement cost estimating guidance and policies and ensure SIGINT portfolio programs adhering to these standards throughout the IC
- Lead, manage, and direct a professional level staff, evaluate performance, and provide feedback and guidance regarding personal and professional development opportunities.
- Brief senior leadership and other major stakeholders as necessary on budget, resource, and strategic planning issues.
- Direct the development and implementation of controls and policies to provide guidance to management officials, and coordinate internal and external initiatives to ensure alignment with key intelligence priorities.

Mandatory and Educational Requirements

- Technical Qualifications:
- Advanced authoritative knowledge of and experience in estimating the cost of SIGINT overhead and airborne and ground collection and related Tasking, Processing, Exploitation, and Dissemination (TPED) programs
- Advanced authoritative knowledge of and experience in applying the principles, theories and methods of cost analysis, operations research, economic analysis and resource management to acquisition issues.
- Advanced authoritative knowledge of modeling and simulation techniques, analytic tools and data development, organization and analysis for use in studies and analyses.
- Expert knowledge of IC acquisition processes, including planning, programming and budgeting.
- Experience in designing and performing innovative cost analyses in support of trade studies, analysis of alternatives, affordability assessments, long term strategic planning and program development activities.

Desired Requirements

- Demonstrated ability to develop life cycle cost estimates and analysis methods and tools, evaluate cost estimates, and conduct cost research.
- Ability to conduct cross-cutting resource affordability analyses to assess future funding issues.
- Strong knowledge of budget formulation, programming, budget execution, and financial management in the IC, defense agency, or a military service.
- Ability to apply analytic, diagnostic, and qualitative techniques sufficient to identify, evaluate, and recommend appropriate solutions to resolve the most complex, cost estimating and budgetary problems.
- Expert leadership and managerial capabilities, including the ability to effectively direct taskings, assess and manage performance, and support personal and professional development of all levels of personnel.

- Demonstrated ability to evaluate and apply a broad range of techniques in the areas of mathematics, statistical analysis, operations research and economic analysis to analyze complex issues
- Extensive briefing and communication skills with the ability to effectively communicate complex issues, analytical results and recommendations in a clear and concise manner to senior leadership.
