Component Mission

The National Counterproliferation Center (NCPC) coordinates strategic planning with the Intelligence Community (IC) to enhance intelligence support to the United States (U.S.) efforts to stem proliferation of weapons of mass destruction and related delivery systems. It works with the IC to identify critical intelligence gaps or shortfalls in collection, analysis, or exploitation; and develop solutions to ameliorate or close these gaps. It also works with the IC to identify long-term proliferation threats and requirements and develop strategies to ensure the IC is positioned to address these threats and issues. NCPC reaches out to elements both inside and outside the IC and the U.S. Government (USG) to identify new methods or technologies that can enhance the capabilities of the IC to detect and defeat future proliferation threats.

The National Intelligence Manager-Counterproliferation (NIM-CP), is a small group of highly energized ODNI and IC officers with insight into the full spectrum of the USG's counterproliferation efforts. NIM-CP officers lead CP campaigns, make cross-cutting programmatic recommendations on behalf of the IC, and frequently represent the strategic CP prospective at the National Security Council.

Major Duties and Responsibilities

- Plan, promote, and share information and knowledge within ODNI and with other government agencies, and effectively recognize, value, build, and leverage diverse and collaborative networks within these organizations.
