

1- In regards to Sa'duf's travel, it was best to request a letter or an audio message, such that there would be the assurance for Sa'duf before his departing.

2- **We need assurances about Azmaray's children.**

3- We see it as best that Abu 'Ubaydah al-Masri become the emir. He is proven [in our eyes]. [This is] unless there is another individual with more experience than the two of them. We [also] suggest that the Brother Khalid al-Habib be a trainer or an administrator, assuring the preparations of the brothers and their weapons prior to heading to the field of operation. (There will be further explanation of this in our response to the request for consultation.) In regards to the Brother Abu 'Ubaydah al-Masri, if he has yet to give his oath, have him do so.

4- In regards to the travel of 'Abdallah Khan, we are eager for him to depart as quickly and safely as possible. If he is to travel to Jordan, may he be mindful of what we mentioned to him previously, in connecting the links with the youth from the Peninsula in order to assist him with support. After his arrival, he can send us a report regarding the condition [there], with the primary importance being the escalation in the resistance to the occupying forces and [secondary objectives being] the prevention of the opening of other secondary fronts, such as the Shi'ites, as well as facilitating the route for his Brothers. We hope that he considers the matter of his travel with the utmost concern [and safety].

5- In regard to the TV channels, there is another source who provides us with the news, but we want you to keep a complete archive about the situation in the Arabian Peninsula, particularly the scholars (fatwas), and their meetings, and also the speeches of Prince 'Abdallah.

6- In regard to Al Jazeera (TV channel), we recommend, after the prayers, to take the safest way, and exactly the separate episodes. Keep in mind that the previous tapes directly or indirectly answer the government's fabrication.

We also ask you to search for a safe line with any American channel, with a letter guaranteeing to publish the complete tape, and we nominate (recommend) CBS, and this is the process for my tape which will be published in November, God willing. But in regard to the Doctor, he may cooperate with the other channels, and it is OK to deal with the French News Agency.

We also wish from Brother/ Abu Fatimah to send two messages to America. The first message in September, and the second message at the end of October, before the elections; concentrate in it on the lies of Bush and his government, and also his crimes, and the failure of Bush and how we were able to economically bleed America. We did not spend but a simple number in comparison to the billions America has paid, and we

psychologically bled America on the internal and external levels. America was never as hated and detested by all the people in the world as it is now. And also the torture of the brothers in Guantanamo and Abu Ghurayb, and the fall of the masks from Western civilization, and what is called Human Rights, and the discovery of the reality of the White House leadership who are the scum of humanity, and they are not supported except by the scum.

What is important to us is for the American people to understand that what we are telling them is rational.

The speech must not have a clear threat, so that it would not be in contrast to my speech. The general idea is for Bush and his administration to lose the opportunity where he uses his speeches about al-Qa'ida and how it is about to launch operations, and all this is to rally the people behind him. Our speech doesn't have threats or assurances, but we want him to understand why we are fighting him.

Within one of the speeches, put a call for the unbelievers to leave the Arabian Peninsula, and insist on the importance of their departure from the Peninsula, and it is a matter of religion and worship to us.

- Brother/ Abu Qutadah al-Filistini indicated, in his interview with al-Sharq al-Awsat Newspaper, that Doctor Ayman is the wise man of the Islamic groups, and we pray to Allah that you will be beneficial to Islam and the Muslims. I have seen articles where he wrote, they are ninety eight, and they include beneficial articles that affirm the system of Jihad, and the Sunnis understanding of belief, and their way of change. I kindly wish from you to review them (the articles), if this has not already happened. Choose the most important and suitable from them and demonstrate them to the youth, and build on these articles in some of yours; especially those dealing with the contemporary problems of evidence from the Qur'an and the Hadith to answer the enemies' systems of all types. There is no legal source on the legal programs that cause confrontation or controversy.

He also points to some of his previous letters, and particularly those answering the transgressions of the Brotherhood, and if he prefers to praise some of the beneficial writings from the books of Sayyid Qutb, keep in mind that I will celebrate the writings of Nassir al-Fahid and 'Abd-al-'Aziz al-Jarbu'.

How nice it would be if he would write an enlightenment series for the youth, to expose the hypocrites of the Sultans' scholars and those who follow their steps, and the loose programs of some Muslim groups that flatter the idols (Unbelievers). It is alright to elaborate in talking about these subjects through tapes, and to write on the internet. It is not intended to be a television speech, but a general speech to the youth, and our wish is for the scholars of the Maghreb to read a fatwa, on the rule of the Sunni scholars and their speakers in the 'Ubayid era, in commentary by Abu Qutadah.

7- We ask 'Abdallah al-Halabi to write us a vision about the way and methods that he may use to receive some of our money from the source known to him, without moving. Just write us the plan and the percentage of safety, and get into the important details in taking the decision, and we hope that you will rush to him our message and his answer to us.

8- He must prepare himself and read the research of al-Mukhtar in the Rule of Suicide, in fear of exposing the secrets of 'Abd-al-'Aziz al-Jarbu'. It is within the files you sent to us, and to plan an easy and small method to help him in that, in case of necessity to avoid being arrested, and with this, we advise all the brothers who have secrets about the Jihadist work to read the research referred to previously.

9- We insist on working with al-Tanbul (the Short) and to provide him with everything he needs.

10- Advise of your latest financial situation and your budget during the next twelve months.

11- In regard to assigning one of the older brothers, the brothers I have mentioned, we believe they are right, but you are there. So, wait and think, consult, and choose without delay or hesitation.

12- I will praise the writings of Shaykh Nassir al-Fahid, and particularly the writing: Demonstration of the Kufr of those who support the Americans. It is a valuable book, so please translate it with our recommendations to it to all the languages in the Islamic world. Turkish, Farsi, Pashtu, Bengali, Bahasa, Malayan, Nigerian and other languages including Swahili, and Ethiopian. He clarifies a contradiction of the most published contradictions, which is helping the Unbelievers against the Muslims.

13- We have previously mentioned to you to target and kill the atheist writers and journalists and their likes, and this is their legal sentence, and we want from you to affirm that to the brothers. But targeting the government high officials, this is an obligation and without a doubt. I have mentioned their apostasy many times. But I leave the timing to the brothers, according to their circumstances and their abilities. The past operations were the beginning of a good thing. The killing of the BBC photographer began to give its fruits on the level of all the people, where it clearly affirmed that the youth are not fugitives, but they target the Unbelievers in the Arabian Peninsula.

14- In regard to Tawfiq and Hamzah al-Rabi', it is important to assign some Pakistani brothers who are satisfied with our work program, to establish a branch for al-Qa'ida in Pakistan, to recruit the needed elements to work inside and outside. But the leaders of the new branch must be knowledgeable of all the rules needed to choose the new members, and the meeting and communications between the emir of the new branch and Hamzah al-Rabi' will be without communication with other centers, and this idea will be executed when the elements are available and prepared for this work.

15- Give my regards to Hajji Salim Khan, and give him one hundred thousand Kaldar, according to your financial circumstances. He is a person trusted to us, and he is the one who lost his sight. Also give my regards to Shaykh Yunis and his son, and give his son one hundred thousand Kaldar, according to your financial circumstances, and apologize to him for our situations.
