Regarding your security situation, the rule for all the brethren with tasks not requiring moving around, such as the media and archives sections, is to stay put. The brethren with tasks requiring moving and meetings such as Tawfiq and Hamzah al-((Rubay')), should accomplish their tasks using letters and very few couriers, I suggest between two to three, unless the situation necessitates more. Refrain from moving around unless there is a dire need and accomplish your work using couriers, and use the less frequented roads.

Regarding Abu-Fatima (Var: Fatimah), we should provide him with a safe place unknown to the rest of the brethren, especially the ones whose pictures were published and have actively been searched for. Unless they agree to remain with him in that place, especially after they found another place. Communication with him should be conducted through trusted messengers, unwanted and unknown to security apparatus. This paragraph is an obligatory order and is not subject to discussion. And, if you could do more than that, it would be better.

1- We need to know the status of Azmarai's sons

2- Concerning the Satellite TV stations, there is another source providing us with the news, but I want you to keep a complete archive for the situation in the Al-Jazirah, especially the Fatwas of the scholars, their meetings and the words of Amir 'Abdallah.

3- Concerning Al-Jazirah Station, we are recommending that after the call for prayer you are to take the safest roads specifically the isolated ones; knowing that the previous tapes are replying directly and indirectly to the fabrications of the government. Additionally, for my upcoming tape in November, look for a secure line with any American TV Station and obtain a commitment letter to broadcast the entire tape. I nominate the CBS station. Also, let the doctor deal with the other stations, and it is alright to deal with the French News Agency.

We also want Abu-Fatima to issue two letters to America, one in September and the other at the end of October, right before the elections. The letters should concentrate on the lies of Bush,

his government and his failure. Also, they should show we were able to bleed America economically, spending a nominal amount, in comparison to the billions spent by America.

(Page 2)

We also exhausted America psychologically on the internal and external fronts. America is hated and despised by all nations like never before. Additionally, the issue of torturing the brethren in Guantanamo and Abu Ghurayb are unmasking the Western civilization and the so called human rights, and exposing the truth about the White House leaders who are nothing but the dregs of society, same as their supporters.

Our concern is to make the American people understand that our attacks against them are warranted, and the letter should not include direct threats to contradict our speech. The main idea is to circumvent the chance for Bush and his administration to use al-Qa'ida and its imminent operations against America to rally the people around them. Our speech will neither be threatening nor comforting, just for them to understand why they are attacked.

In one of the speeches to the heretics of the Arabian Peninsula stressing the importance for them to leave the Peninsula, which is an ordained religious order for us.

- In an interview with the Middle East Newspaper brother Abu-Qattara, the Palestinian, indicated Dr. Ayman is the sage of the Islamic groups, we ask God to make you beneficial to Islam and Muslims. I have read 98 articles written by him; the articles are useful in their totality; emphasizing the approach of Jihad, the understanding of faith by the Sunnis, and their role in the change. I ask that you review the articles, select the most important and suitable ones for the youths to read, and praise the articles in some of your writings, especially, the ones dealing with contemporary problems, citing the Book, and religious practice; rebutting all sorts of the opponents' approaches that may have taken on unlawful legitimacy causing disagreements and arguments.

Also, reference some of his letters; in particular the ones answering the transgressions by the brethren. If you agree, quote some of the useful writings from the books of Sayyid ((Qutb)), and I will reference the writings of Nasir al-((Fahd)) and 'Abd-al-'Aziz al-((Jarbu')).

It is preferable if he writes an educational series to the youths and to scandalize the scholars of the sultans and their followers from the Islamic groups who are coaxing the dictators; and it will be beneficial if the same subjects are addressed in detail on cassette tapes, and posted to the Internet in the form of general speech for the youths and not a speech for television.

Additionally, have the fatwas issued by the scholar of al-Maghrib judging the Sunni scholars and speakers during the reign of al-'Abidyn, and narrated by Shaykh ((Abu-Qatada)), been read.

4- Notify 'Abdallah al-((Halabi)), as soon as possible to devise a travel plan, without moving, to receive some of our funds from the source that he knows. He should indicate the risks involved, detailing the reasons on making the plan, and to reply to me.

5- He must prepare himself and read al-Mukhtar study on the subject of "suicide to avoid revealing secrets" by 'Abd-al-'Aziz al-Jarbu', the research is with the files you sent to us; formulating a small simple way to aid him in the case of getting captured. We are recommending that all brethren tasked with jihad operations read the aforementioned study.

6- We emphasize the work on al-Tanbul, and provide whatever is needed for it.

7- Need to know your financial status and your budget for the next twelve months.

8- Regarding tasking one of the senior brethren; the ones I have mentioned are good and you are similar to the present ones. Be patient, careful, and consult without delay and hesitation.

9- I will praise the writing of Shaykh Nasir al-Fahd, especially his book about the elucidation of the blasphemers who are helping the Americans. It is a very valuable book, so please have it translated in all languages found in the Islamic nation such as Turkish, Farsi, Pashto, Bengali, Indonesian, Malaysian, Nigerian, Swahili, and Ethiopian, along with our praise. The book illustrates one of the main contradictions to Islam, which is helping the atheists to subjugate the Muslims.

10- Previously, I have mentioned to you to target and kill the atheists among the writers, reporters, and the likes, and that is their lawful sentence. Please make sure the brethren are aware of it; and as I said before, it is a duty to target the leadership of the country, and I am leaving the timing to the discretion and the capabilities of the brethren according to their situation. Let it be known that the latest operations starting with the source of the news and the killing of the BBC photographer are starting to pay dividends...

...on all levels of the masses. It was clear that the youths were not rebels but were targeting the polytheists in the Arabian Peninsula.

11- Concerning Tawfiq and Hamzah al-Rubay', it is important to task some of the Pakistani brethren who are convinced of our work to establish a new branch of al-Qa'ida in Pakistan to enlist the needed elements for the external and internal tasks. The leaders of the new branch must be well versed in the required controls for the selection of the new members; and the communications be only between Hamzah al-Rubay' and the prince of the new branch, without contacting the other bases. This initiative should be carried out when the qualified element for jobs are available.

12- Deliver my greetings to Hajji Salim ((Khan)), and allocate him the sum of 100,000 Kaldars, depending on your financial situation. He is a trusted man that lost his eyesight. Also, greetings to Shaykh Yunus and his son. Give the son 100,000 Kaldars as well, and apologize to him for our financial situation.
