In the name of Allah the Merciful, the Beneficent

Praise be to Allah, the Lord of all worlds, prayers and peace be upon our Prophet Muhammad, his God, and all of his followers...

To the honorable brother Haj (('Uthman)), Allah keep him

Peace be upon you and Allah's mercy and blessings

I would like to send my greetings to you, all the brothers, and their offspring. Praise be to Allah we are fine, and the card from you arrived. We were very anxious to hear of your latest efforts in freeing our prisoners in Iran, except that the message that was in your name didn't open due to being damaged. This has happened before and I would like you all to send the messages to me through good cards, and it would be best if they were new. Make sure you can open them more than once, and it is recommended that you open them on a separate computer as well, which is even better.

It is known that the card that contained the message in your name contained three files:

- 1 - Necessary            Opened
- 2 - Your Message       Didn't open
- 3 - File Name           Didn't open

I would like you to send me the messages through more than one file and send them on two cards containing your messages in their entirety.

In regard to the blatant Iranian expansion, do not be afraid that the many duties and challenges from the enemies are great and dangerous. The Russians were defeated through the favor of Allah, and even when the Crusaders began to intensify their campaigns against the Islamic nation in general and the Mujahidin in particular, it was inevitable that we undertook jihad against this Zionist Crusader alliance.

Page 2

After the jihad against them throughout these long years, through Allah Almighty's favor, they have become weaker, older, and their reach has been turned back.

Today do not fear them because the greatest danger threatening the region is the danger of Iran's Magi rule, taking into account that it is from within, their large number of residents, and they hide under the banner of extending their influence in Muslim nations in order to turn away the West.

We must carry the Jihad against the Jews, Christians, and heretics. You know that opposing the Safavid Iranian regime will be more difficult and extreme, because the animosity for the Jews and Christians is a generally accepted premise and axiom for Muslims, and from Allah and they deserve it from within the Nation. However, the Safavids have pockets, influence, and many supporters in every part of the Islamic world, especially in the Gulf Nations, Pakistan, Afghanistan, Lebanon, Palestine, Indonesia, Nigeria, and Sudan. These Safavids drape the people in their religion and they call it Islam and advocate it and the cause of Palestine. So there will be some Muslims who support this deceptive regime because they do not know the truth of its infidelity and hypocrisy, aside from the atheists and hypocrites who recruited them from our Nation who also align with the Syrian and Qatari regimes, giving them an important media platform in the region. I mean by that Al Jazeera channel, and I add to that its alliance with the opposition movement, Hamas, and the Jihad and some of the other opposition sects that desire to confirm that there is a media and jihad campaign against it that is proportionate to the size and scope of the mission. It is a operational priority to incite all the scholars and proselytizers of the Nation to join in this campaign against the Safavid Rafidites and do everything possible to alarm and recruit whoever refuses to participate in this campaign, specifically those among them who have taken positions of support for some of the Safavid Rafidites figureheads such as the support and praise of al-((Zandani)), 'Iwad al-((Qarni)), and others for Hassan ((Nasrallah)). We as an organization need to do the following:

Page 3

1. General mobilization and public announcement and do what is necessary to protect those brainwashed by them by undertaking a campaign to convince them and publish documents on the Rafidite Shiite doctrines and Iranian politics today.
2. Inform all our brothers in Iraq, Morocco, Somalia, and Yemen of this plan to contact the scholars and proselytizers to incite the Nation and alarm it. They themselves will contribute their words in this incitation and do what is in their capabilities

for this campaign to save the Islamic world from the Safavid expansion.

3. Task all our brothers capable of sermons and writing to exert all their efforts to incite the Nation against the malicious Safavids and alarm them to the danger of their doctrines and goals in the Islamic world.

4. Send a delegate or more to the top scholars, shaykhs, and proselytizers, such as Shaykh Hamid al-('Ali) in Kuwait, Shaykh Husayn ((Bin-Mahfuz)) in Yemen, and Shaykh Muhammad 'Abd-al-((Karim)) in Sudan, and inform them of my words:

The danger of Saddam, the Ba'thist, was very great to the region, but this danger was inconsiderable when compared to the danger of the Safavids. And with that we don't see action that compares to or is proportionate with the greatness of this danger from the scholars, proselytizers, leaders, and tribal sheikhs and this is what is causing wonder. The amazement is not because you know the corruption of the Rafidites doctrines and the danger of the Safavids throughout history upon our Nation and not because you know that the Ahvaz Arab Emirate was crushed by the military power and they were converted to Shiites and Persians by the hand of the Safavids. This is not just in the past, and you now see the harshness that is imposed upon the Sunnis in Iraq by the hands of the Safavid and Sadr militias, and they are just a stone's throw away from you. Even now, some of their leaders in the holy countries are asking to divide the eastern region. The Safavids march continuously through all means and they advance every day, and you don't act. And as I said before and still say:

Page 4

The first line of defense is the holy countries and about the remaining Muslim countries it is in the trenches of al-Anbar, Baghdad, Diyala, Mosul, and Salah al-Din, and from those trenches the jihad against the Crusaders is necessary and to strike the Safavid militias, and as I said, cautiously and anxiously:

Today Baghdad, tomorrow Amman and Riyadh.

Your silence indicates the general disaster that has been inflicted upon the people, except those spared by Allah, and the will has been stripped and the important matters entrusted to the leaders. This is a deadly mistake, as well as overstepping

Shura law, because of their apostasy, and it is also not mentally sound. The regimes of the region have intelligence agencies that know the extent of the Safavid influence in Iraq and in the nations of the rest of the region. The Saudi Faysal exclaimed years ago that the Americans have handed Iraq to Iran on a platter of gold.

They know the truth, but they are not preparing themselves to defend the countries. Likewise, they have not prepared people to protect themselves. On the contrary, they are practicing despotism and are repressing all those working seriously from forming a real force to defend against the deception of the enemies. They have indeed created a defense for the countries and the worshippers and the United States is responsible for it

.

Today it is marching at a quick pace to reconcile with Iran and coordinate the status with it and the people of the region are paying for it. The foulness of this falls into the hands of the rulers after they dropped their active weapon (the United States), their ally, which is also a friend of the Safavids, their enemy.

In conclusion, the solution is possible in:

1. Alarming the Nation to the danger of the Rafidite doctrines, their plans to seize the Nation, their capabilities, and the extent of their hatred for the family of Islam. They're the ones who consider the followers of the Prophet to be infidels, and they are waiting for the opportunity to exhume their bodies and desecrate them. So what do you they will do to us? We already know of the horrible things they have done to Muslims in Iraq.

2. Incite the Sunnis in Iran from the Baluchi's and the Kurds and contact those scholars that they have left after the cleansing campaigns against them and support them in alarming

Page 5

their people and Abu-al-Muntasir al-((Baluchi)), who has a role in exposing the Rafidites in the media on the al-Mustaqilah Channel.

3. Support the Muslims in Iraq and Afghanistan in turning back the willfulness of the Safavid expansion.

4. It is desired that this campaign be focused on the important issues and that the principles are in layman's terms so that they can be discussed by the commoners, such as focusing on their altering the meaning of several Qur'anic verses, such as the verses of the Mother of the Believers 'A'ishah, Allah bless her, or their classification of the Prophet's companions, may Allah bless them, as infidels. Allah is aware of what is in their hearts and he was pleased with them and blessed. [God's Good Pleasure was on the believers when they swore fealty to thee under the Tree: He knew what was in their hearts, and He sent down tranquility to them; and He rewarded them with speedy victory.] al-Fatah 18. Allah almighty knows the unknown and knows what is in the hearts of the worshippers, and if Allah is pleased with a servant, then that servant will die a Muslim and not an infidel.

Likewise, the Prophet of Allah, peace and prayers upon him, if he indicated that one would go to heaven, then that person would die a Muslim and not an infidel as they claim. Another example of this is their belief in the infallibility of the Imams and this infallibility is higher than the characteristics of the prophecy, and they organize their beliefs that this religion was not concluded with the death of the Prophet, peace and prayers upon him, and that the link was not cut off. Their beliefs are that they use all of these conspiracies for religion to destroy it in regard to the Imams and at their forefront is the Emir of the Believers, 'Ali, and his sons al-Hasan and al-Husayn, Allah bless them all.

By this they resemble the al-Qadiyaniyah, the religion created by the English to destroy Islam. The Rafidites don't call for the prophecy of the Imams, Allah bless them, and the truth is not altered because they created it in the prophecy to govern the people instead of diminishing the prophets, peace and prayers upon them, and they honor themselves that they are in service of the al-Husayn, Allah bless him.

Page 6

They are satisfied by some of the important sayings for their Imams in this modern age, except that there isn't an opportunity for the Rafidites to escape from the sayings of their former Imams. The Khomeini believes that the Imam is better than the Prophet and the coming King. He classifies his followers and people in Iran as better than the followers of the Prophet, peace and prayers upon him.

In conclusion, I would like haste in starting this campaign and serious work on all levels and directions, especially in contacting the scholars, proselytizers, and writers or through the media. Notify us of everything that is accomplished in regard to this. Allah bless you, and may our efforts never cease to be honorable and to be accepted by Allah. Our final calls are that praise be to Allah, Lord of all the worlds, and peace be upon you and all the brothers with you.

Your brother,  
((Zamrai)) 06 May 2009
