

In the name of Allah, the Merciful, the Compassionate, and peace and prayer be upon his Messenger.

Dear brother and our honorable Shaykh/Zamaray Sahib

Peace be upon you.

We pray to Allah that you are well and in good health, and to hasten your march on the road of Jihad.

We received your letter dated 18 Rajab, God rewards well. We hope that our letter which we previously sent has clarification for many of the issues you asked about, but what is new is as follows:

1- In regard to the West, it appears that the information we received on the arrival of the family of Azmarai to the mediator was not accurate, and possibly they have arrived to the mediator's border village and are still with the wicked. The mediator informed us that the wicked have told him that the family and the rest of the brothers in their custody are afraid, and they do not believe that the brothers who were released have arrived here to us, and they asked us to bring back a person of those who were released to assure them. We decided to record a video showing the released brothers or some of them. I would be with them, and we would talk about what would assure them. This was done, and we sent the recording to the mediator, but we have not received anything new yet. Your expectations about the brothers' fear of the route are correct, especially those who are wanted. God willing, we will deal with their issue in light of your suggestion and the developments on the matter.

2- In regard to the situation here, Praise to Allah, everything is fine, and the enemy has quieted down in regard to their bombing. They sent a message on their wish to negotiate, but the Mujahidin did not answer them. We will meet with the Mujahidin Alliance for consultation, and probably, we will not negotiate now. The Mujahidin are executing many operations in Shamali against the enemy's positions and its movements and they are killing many of the enemy's elements with the participation of our brothers. The matters of the activities, the training and the operations here or inside are going very well from both sides.

3- In regard to the matter of the list, and what you have mentioned of evidence to the importance of the matter, it is

strong evidence, and God willing we will have a meeting for our Shura Council very soon and we will introduce to them what you sent, and we ask Allah to give us success in what is good.

4- In regard to the information and your opinion about the situation of Iran, and the complaints about the elections and your views of it, we benefited from it very much, and God willing its benefit will be for the well being of the Muslim nation as you mentioned.

5- In regard to my interview with Al Jazeera, I discussed the answers before the interview with Shaykh Abu Yahya, and Shaykh Mahmud. I was hoping very much to meet with Abu Muhammad before the Interview, but our meeting with him was delayed until after the interview with Al Jazeera. None of us noticed that our discussion about the operations in Iran, (and we agreed about it before the Interview) had a declaration about an attack on Iran, but we intended to increase the pressure on them through the mass media. Al Jazeera removed some words from the answers, including my statements about the operations in Syria and Iran, and they were not random strikes, but they removed all my answers about Syria, and some paragraphs in the answers about the Arabian Peninsula. But my comments about the Mujahidin of Hamas, there was a mistake and a slip of the tongue. We wrote a clarification report and sent it to the Internet, and a copy of it is attached to you. Anyway your directions will be respected, and I did not intend a declaration of strike or operations. What is admitted will be after your permission, so please accept my apology, and God forgive us and accept our and your good deeds.

6- Attached is a letter from 'Abd-al-Latif and it has your private account and what he deducted from it. We were not able to obtain the address of Al Jazeera, and God willing we will send it in the next message.

And finally we leave in God's hands and do not forget us in your prayers.

Peace and God's Mercy be upon you.

Your brother,
'Uthman
