

In the name of God the merciful, the compassionate:

To my dear brother, may God protect him from all evil.

Greetings, and may God's mercy and blessing be upon you.

I am sending you this message hoping that it finds you and everyone well.

We were greatly delighted to receive your message. Praise God. As for the engagement of Abbi-'Abd-al-Rahman's daughter BM, may God's mercy be upon him, I wrote a message to them about that. They responded that there are two brothers who have already proposed. If that is not the fate for either of them, then you will write to us. This was about six months ago. I wrote you an answer at that time, but I was not able to send it until three months ago, and the response did not reach you.

As for the replacement, God knows that we care about this issue. But I asked here and I did not find anyone except for the daughter of Shaykh ((Abu-al-Walid)) al-Filistini. There are the daughters of Abu-al-Hasan al-((Shar'i)) inside Pakistan. We await your response and pray to God to bless you.

As for not writing a response last time, it was because I was writing a message on the charged computer because there was no electricity where we are staying. We tried to activate the electric generator to write messages but the security situation does not allow it. I had wanted to write you the response, if not for the computer charge running out. I was forced to end the message. Now praise God we agreed with the household to activate the electric generator at night at 2300 to write messages.

The people of the household are very good, praise God. The owner of the house was working for the organization. He said that he saw the father in the era when he wore a short robe and a black beard.

What is new with you? Write to us with your news, and Abu-'Abdallah and 'Abdallah and 'A'ishah and Usamah send you many greetings. Finally we praise God, Lord of the universe. Greetings, and may God's mercy and blessing be upon you.

Your sister Khadijah, 24 Rajab
