In the name of God the merciful the passionate

Thanks to God the Lord of the heavens and prayers and greetings on our Prophet Muhammad and on kindred and all his followers

Thereafter:

To my beloved sister Um `Abd-al-Rahman, may God save

I send my message

I write this message to you, asking God that you and those who are with you are in good status and healthy in your religion and in your daily life. I convey to you the good news of meeting with you, which was long awaited, thank God. I also convey the good news of a dream seen by Khalid, after my message to you on ... God knows that we did not write until after the extreme feeling of embarrassment from you and for our delay. Whenever we prepare ourselves to meet with you, a security situation takes place that delays our plans to meet with you, and we can only resort to God as our best supporter.

The beginning of the relief:

My virtuous Sister:

After the last message to you, which discussed the difficulties of the security circumstances around us, and the placing of the four months, as was explained because of the security pressure and the great embarrassment from you...

Page 2

...my father was very sad for that; he slept and woke up at the last third of the night to pray to God about our security situation, and that God would ease the marriage of Manhal. Then he slept and saw in his dream the following: I saw "that I was in a home similar to the home that we are in, and he prayed to God to facilitate our conditions and facilitate my marriage, and while I am like that, there was a knock on the door and he went and opened the door and the Prophet Muhammad (PBUH) entered the home. He was smiling and asked me why I was in a hurry, and sent the message to be patient and to not be in a hurry; the issues will be resolved one after one. Then he tapped on my shoulder

and told me not to be sad, then he left, on him the prayers and the greetings.”

My virtuous Sister:

My beloved sister, I am explaining to you in this message the matters in detail, so that you are with us in the picture, and to be assured that we are all keen to finish the matter. Particularly Khalid, as we are all holding onto this bondage and you knew me before and my brothers.

The situation that barred me from seeing my precious daughter - may God bless her soul - are the same circumstances that stood between completing the marriage of my daughter from Abi Abdullah - God bless his soul - until he met his God as a martyr on the past 10th of Shawal (AH). It is the same reason to us, irrespective of her old age and being imprisoned eight years in the tyrant prisons of Iran. The situation is that the brother,

Page 3

which we are in their hospitality, refuses the arrival of anyone to us. We are subjected to this pressure and we have been trying to get out of for a long time. Whenever we see a glimmer of hope, we try to meet with you, but the hope disappears. God knows that we have tried a lot, to move with other brothers, whenever we could.

The Relief is postponed:

The media released the speech of President Obama that he would withdraw the American forces from Afghanistan after six months. This led Khalid and his father to decide to change the situation that we are in to a better situation, since the security circumstances here have changed.

My virtuous sister, as for the encounter, my son has tried many times to meet with you at Al-Sind, but it was not possible due to security reasons. We from our side have two choices, and if you have another suggestion, please let us know.

1. If it is possible for you to come to any city that is around Peshawar.

2. If that is not possible, for any reason, then we will wait until America leaves Afghanistan, and after that, matters will be relieved and our movement will be easier. We will also honor

your request that your generous daughter be with you after the marriage, with God's permission.
